

BONNET SHORES LAND TRUST MEETING

Date: October 18, 2016

IN ATTENDANCE; Terry Duffy, Brad Sellon, Nancy Cordy, David Stenmark , Anita Langer

The Bonnet Shores Land Trust was called to order at 7:02pm. Terry Duffy outlined our goals and prioritized our list for input from the committee. The consensus centered on the safety of our constituents particularly as to traversing on the Causeway. Concerns from our constituents prompted this discussion. Different traffic calming suggestions were discussed. Due to the fragile nature of the area and occasional flooding from the pond particularly in raining season alternative ideas were discussed. Brad Sellon discussed the walkways in Florida. Input from Nancy Cordy and Anita Langer regarding Raised walkways were discussed as feasible ways to traverse that area for walkers, joggers, etc and passive recreation. The committee was charged with looking into research into this idea, cost, feasibility of such a possible walkway and funding . All were given tasks to take back to the next Land Trust Meeting.

Anita Langer made a motion to adjourn the meeting. David Stenmark seconded it. The meeting was adjourned at 8:32pm.
